LITASKI

LIGHT A SKY

Litaski, a premium brand of electrical switches for homes and offices. Litaski's motto is "Switch to the Best", and it delivers on this promise for more than 3 decades with its range of exquisitely crafted switches that stand out for their design, quality, and durability.

At Litaski, every switch is a masterpiece, meticulously crafted with attention to detail and a passion for perfection. From the elegant cover plates to the silver contacts that ensure better electrical conductivity and anti-welding properties, every component of Litaski switches is designed to offer superior performance and longevity.

One of the standout features of Litaski switches is their interchangeability. The plates (Mint, Arc, Viva, and Mayfair) and switches (Mint, Menta and Milo) can be used interchangeably, which means you can mix and match different styles and finishes to create a unique look that suits your taste and decor. This is made possible by the universal support frame, which can be used with any switches and plates, unlike other competitor models.

Litaski switches come in a range of stunning plate designs, including the Mint with its 3D profile, the Arc with its smooth bend at the top, and the Viva with its chrome edge around the switches. However, the real showstopper is the Mayfair range of plates, which come in twelve beautiful colors with different edge combinations, including red with silver, black with silver, black with gold, white with silver, white with gold, satin black, titanium grey & black chrome for walnut, brown wood, wenge, rosewood & black oak colours.

In addition to their aesthetic appeal, Litaski switches also offer superior functionality. The switches are easy to operate and offer a smooth and responsive touch, while the contacts ensure a reliable and long-lasting performance.

Overall, Litaski switches are the perfect choice for anyone looking for a premium electrical switch that offers both Style and Quality. With Litaski, you can switch to the best and enjoy a lifetime of superior performance and elegant design.
